A unique opportunity for your business to commission high-value content, showcasing your products, your people and your capabilities:

- Work with a dedicated editor who will talk with you to clearly understand your goals and will feedback on how they think this is best achieved as an article.
- Your article will be written by an experienced editor and published at time that best suits your objectives.
- Promotion of your articles through a number of marketing activities including e-mail and social-media activity.

Bring your products, case studies or career opportunities to life and quickly engage with prospects and customers. We offer the following services:

- Concept development
- Script writing
- Storyboarding of ideas
- Interviews
- Filming
- Production
- Voice-over artists

We can also film videos at key scientific conferences throughout the year, enabling you to easily interview customers or create a product showcase.

After production all videos will be promoted by our dedicated marketing team across our digital channels, including relevant social-media platforms and e-mail campaigns.

Give your prospective customers a chance to interact with you in real time and develop a personal connection with your brand.

- You’re the product expert – take the opportunity to personally highlight the benefits that your products and services bring.
- Each webinar benefits from an exclusive multi-channel marketing campaign to provide you with as many qualified leads as possible.
- A recording of your webinar is available on demand for six months, giving you extra lead-generation opportunities for no extra effort.

Magazine advertising options

Reach a different audience by advertising in our CERN Courier subject supplements.

- Each of our supplements cover a core subject in high-energy physics.
- Sent to key events throughout the year, advertising within our supplements enables your campaign to reach a targeted audience, that is different from the usual CERN Courier readership.
- Consider increasing the impact of your advertising campaign by including advertorial within the magazine.

CERN Courier is sent to key events throughout the year, in addition to bulk distribution to key facilities.

**Focus on USA**

August

Contact us for the most up-to-date distribution plans, including key shows and facilities.

**Vacuum**

December

One of our most popular topics, this supplement will be packed full of brand new, exclusive content exploring the role of vacuum technology in high-energy physics. An issue not to be missed, we expect spaces to be limited so please contact us early.

- SVC 2022
- AVS 68th International Symposium + Exhibition
- JPS Annual Meeting 2022

Contact us for the most up-to-date schedule.

Tell a different story to the CERN Courier readers by taking out advertorial within our main issues or subject based supplements.

- Advertorial is written by you to allow you to craft a message that directly reaches your prospective customers.
- The written word enables you to highlight different messages to print adverts. Why not explore a recent client success story, explain why you developed a new product, or showcase why prospective employees might want to work for you?
- Increase the impact of your advertorial by taking out complementary print adverts.
